

ENVIRONMENTAL ASSESSMENT FINDINGS

- The East-West BRT will operate on existing streets. Only 92nd and 94th Streets near MRMC will be reconstructed as part of the project.
- Traffic signal modifications will be made to maintain acceptable traffic operations.
- No property acquisition is required by the project.
- Stations have been designed and located to be compatible with historic structures and places in the corridor.
- Potential noise impacts to one building on the MRMC campus will be mitigated by the project.
